**We are the First and Leading Stainless Steel Faucet, Sanitary Fittings, and Kitchen Accessories manufacture in Thailand**

**The company has been established since 1972 for more than 49 years with expertise and experience in this field.**

**We have our own branded products including OEM which have been sold nationwide in Thailand and exported to many countries across the world**

# THE VALUE OF STAINLESS STEEL

VRH products are made of the finest selected Stainless Steel grade 304, the high premium material which has distinguished properties for aesthetic surface, high corrosion resistance, and durability,

Stainless steel is considered as a hygienic material which is widely used in many industries such as medical appliance and food equipment. In addition, stainless steel does not contain hazardous chemical contamination such as Lead, Cadmium, Zinc, etc.

# PRODUCT ADVANTAGE

## **PREMIUM QUALITY STAINLESS STEEL 304**

Made of high quality Stainless Steel grade 304, feel the touch of Stainless Steel surface, longer durability and high corrosion resistance which differs from general chromed coated products.

## **SAFE FROM HEAVY METAL CONTAMINATION**

Verified by Thailand Industrial Standard for water safe and free from hazardous heavy metal contamination (Lead and Cadmium).

## **ALL SPARE PARTS ARE REPLACEABLE**

Extend the product life with available spare parts for all parts. Spare parts are easy to replace. Easy repairation and low maintenance cost.

## **SMOOTH TOUCH AND EASY USE**

Enjoy the softness of water flow. Easy to use with smooth touch from innovative spring system. Our Rinsing Spray has passed the operation durability test for more than 500,000 times.
