Yale Smart Lock

Trusted every day

Yale is trusted by millions of people every day to keep what's important to them safe.

Our innovations have protected their homes, families and belongings for over 180 years. We have expanded from being a leader in mechanical lock engineering to innovating connected smart locks and homes. Because we always make every effort to push the boundaries in a changing world.

We were there for your grandparents (and probably theirs) and we'll be there for your children.

Today, and every day to come.
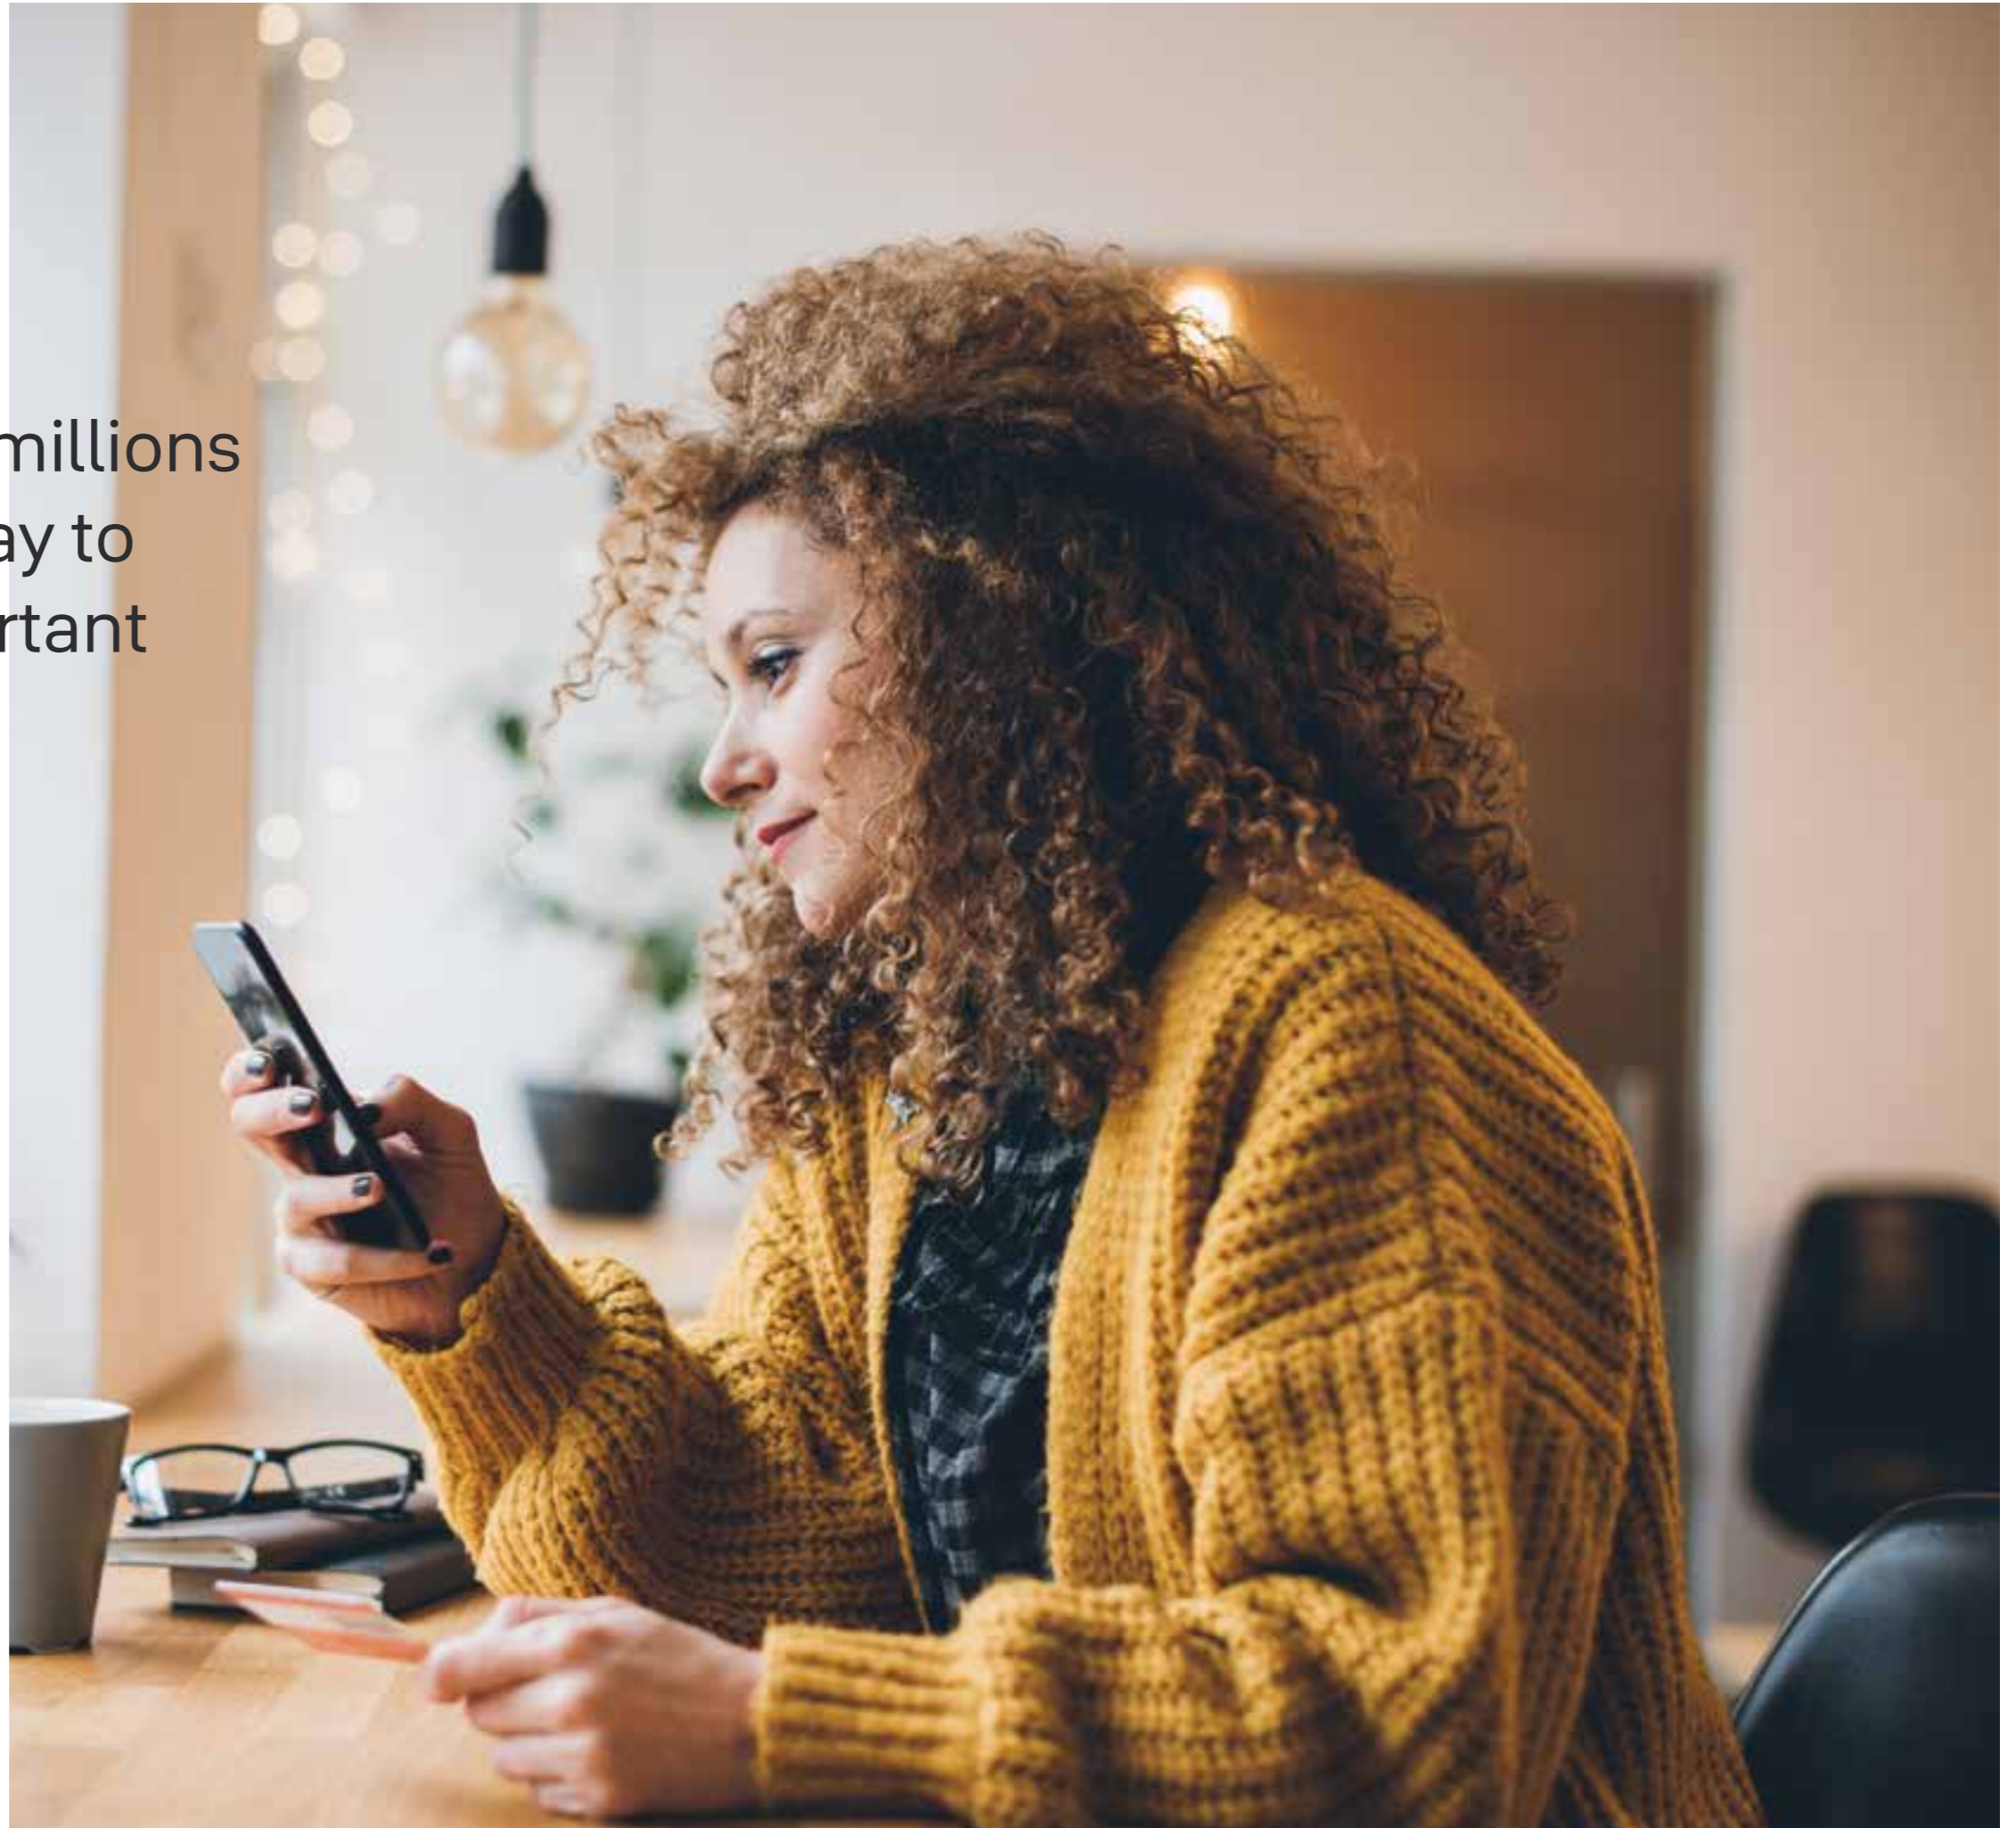

Smart Mortise Lock

Yale offers a wide range of Smart Mortise lock for residences. It is designed with both handle and lock mechanisms integrated into one compact unit, it tends to replace your existing lock mechanism entirely. Yale Smart Mortise locks provide more robust security for your home.

It is designed for European standard and it can be used on wooden swinging doors.

Yale Luna Series

Family always comes first in our mind, so do our innovations.
Meet Yale Luna Pro+, the face recognition using Yale FaceScan technology powered by 3D structured light to enhance the security of your entrance. The best solution you can ever have for your beloved kids, parents and family members.

With our patented off-centered design, it enables safe operation without having the risk of finger pinching. The fully-auto lockcase makes smooth and fast locking or unlocking experience with low noise. This modern and sleep design smart lock complements your home like no other. Yale Luna Pro+ allows you to open door in various ways, you can enjoy the access option either via face recognition, fingerprint scan, personalized PIN code, CPU card or simply via Yale Home app.

YDM7220 BioSecure™

Keep your loved ones safe and healthy by ensuring all touch points around the house is cleaned and disinfected properly and frequently. Thanks to the BioSecure™ anti-bacterial solution, our lever handle is coated with BioSecure™, which is formulated using silver ion to inhibit bacteria growth and reduce the risk of secondary infections, especially in elderly people and the young ones.

You can choose from different types of door access control for your home, from fingerprint scan to personalised PIN code, RFID key tag or simply via the Yale Home app. Yale redefines peace of mind with the BioSecure™ technology that addresses hygiene concerns while you enjoy a convenient and secure entrance solution for you and your family.

YDM7116A

YDM7116A comes in two elegant colours – Champagne Gold and Bronze Red – and with a progressive fingerprint scanner as well as a number padlock. If you have a door which opens on either side, the smart lock can be customised to serve different purposes. YDM 7116A also has a pin button built into the door handle, which prevents kids from easily opening the door. Controlling door access is as simple as giving the "lock/unlock" commands and other instructions from your smartphone via the Yale Home app.

Backset	60mm / 70mm
Door thickness	35 - 100mm

*Yale Home kit is required for Yale Home functionalities (sold separately).

YDM7216A

YDM7216A has great features, but what really makes it special is the stylish and sleek design. The body is either gold or black in colour, with perfect finishing touches. The smart lock's technology hides the fingerprint sensor underneath the display screen. It has a hidden mechanical keyhole, which enables access with a spare mechanical key if there is an emergency situation. Virtual password entry can effectively prevent password leakage, and get alerted through instant phone and sound alarms when there have been unauthorised attempts or access. It's all in the details.

Door thickness	35 - 100mm

*Yale Home kit is required for Yale Home functionalities (sold separately).

YDM3109A

Monitoring door access remotely has never been easier. With Yale Home app, you will get push notifications on your phone in an instant whenever someone comes and goes, or if there's a jammed lock or door intrusion. Like the more advanced smart locks these days, YDM3109A has extra measures to handle an emergency situation with its own anti-panic egress function. The lock has been specifically designed with this in mind, opening from the inside by simply pushing the safe handle down. Similarly, the safe handle can prevent any break-in attempts.

YDM4109A

YDM4109A comes with a voice guide feature that provides the status of the lock and details on how to personalise each feature and mode to suit the convenience of the user. In using a smart lock such as the YDM4109A, you can cast a wider security net to safeguard your home against burglary or intruders. No longer do you need to worry about forgetting to lock the door before leaving for work or vacation. YDM4109A is implemented with DoorSense™ technology that lets you know if the door is closed or left ajar. And if the door has been left ajar, the auto locking system will automatically lock the door for you within a 5-second timeframe.

YDM3115A

It's natural for a home to have multiple guests coming together under the same roof. Hence, the YDM3115A smart lock lets you enter home without needing to remember PIN codes simply because you can use RFID key tags for easy door access. You can even issue single-use temporary passwords for your visitors and set schedules to let them in while you're away. The voice guide feature that comes with YDM3115A is there to walk you through the step-by-step process on various operations possible on your smart lock, including PIN code scrambling to make your code harder to follow.

YMF40A

With so many ways to unlock today's doors, the passcode (PIN) or fingerprint seem to be the best defence against intruders wanting access to your doors. With YMF40A, you can do just that and more. Supporting the performance of this keyless solution is the Yale Home app that connects your smartphone to the door so you can control it anywhere, 24/7.

Smart RIM Lock

Yale Smart RIM Locks are good for adding on to an existing door mechanism. If you prefer to use existing handle or want to keep an existing deadbolt lock, then Yale Smart RIM locks are definitely your best choice for giving your home an extra security.
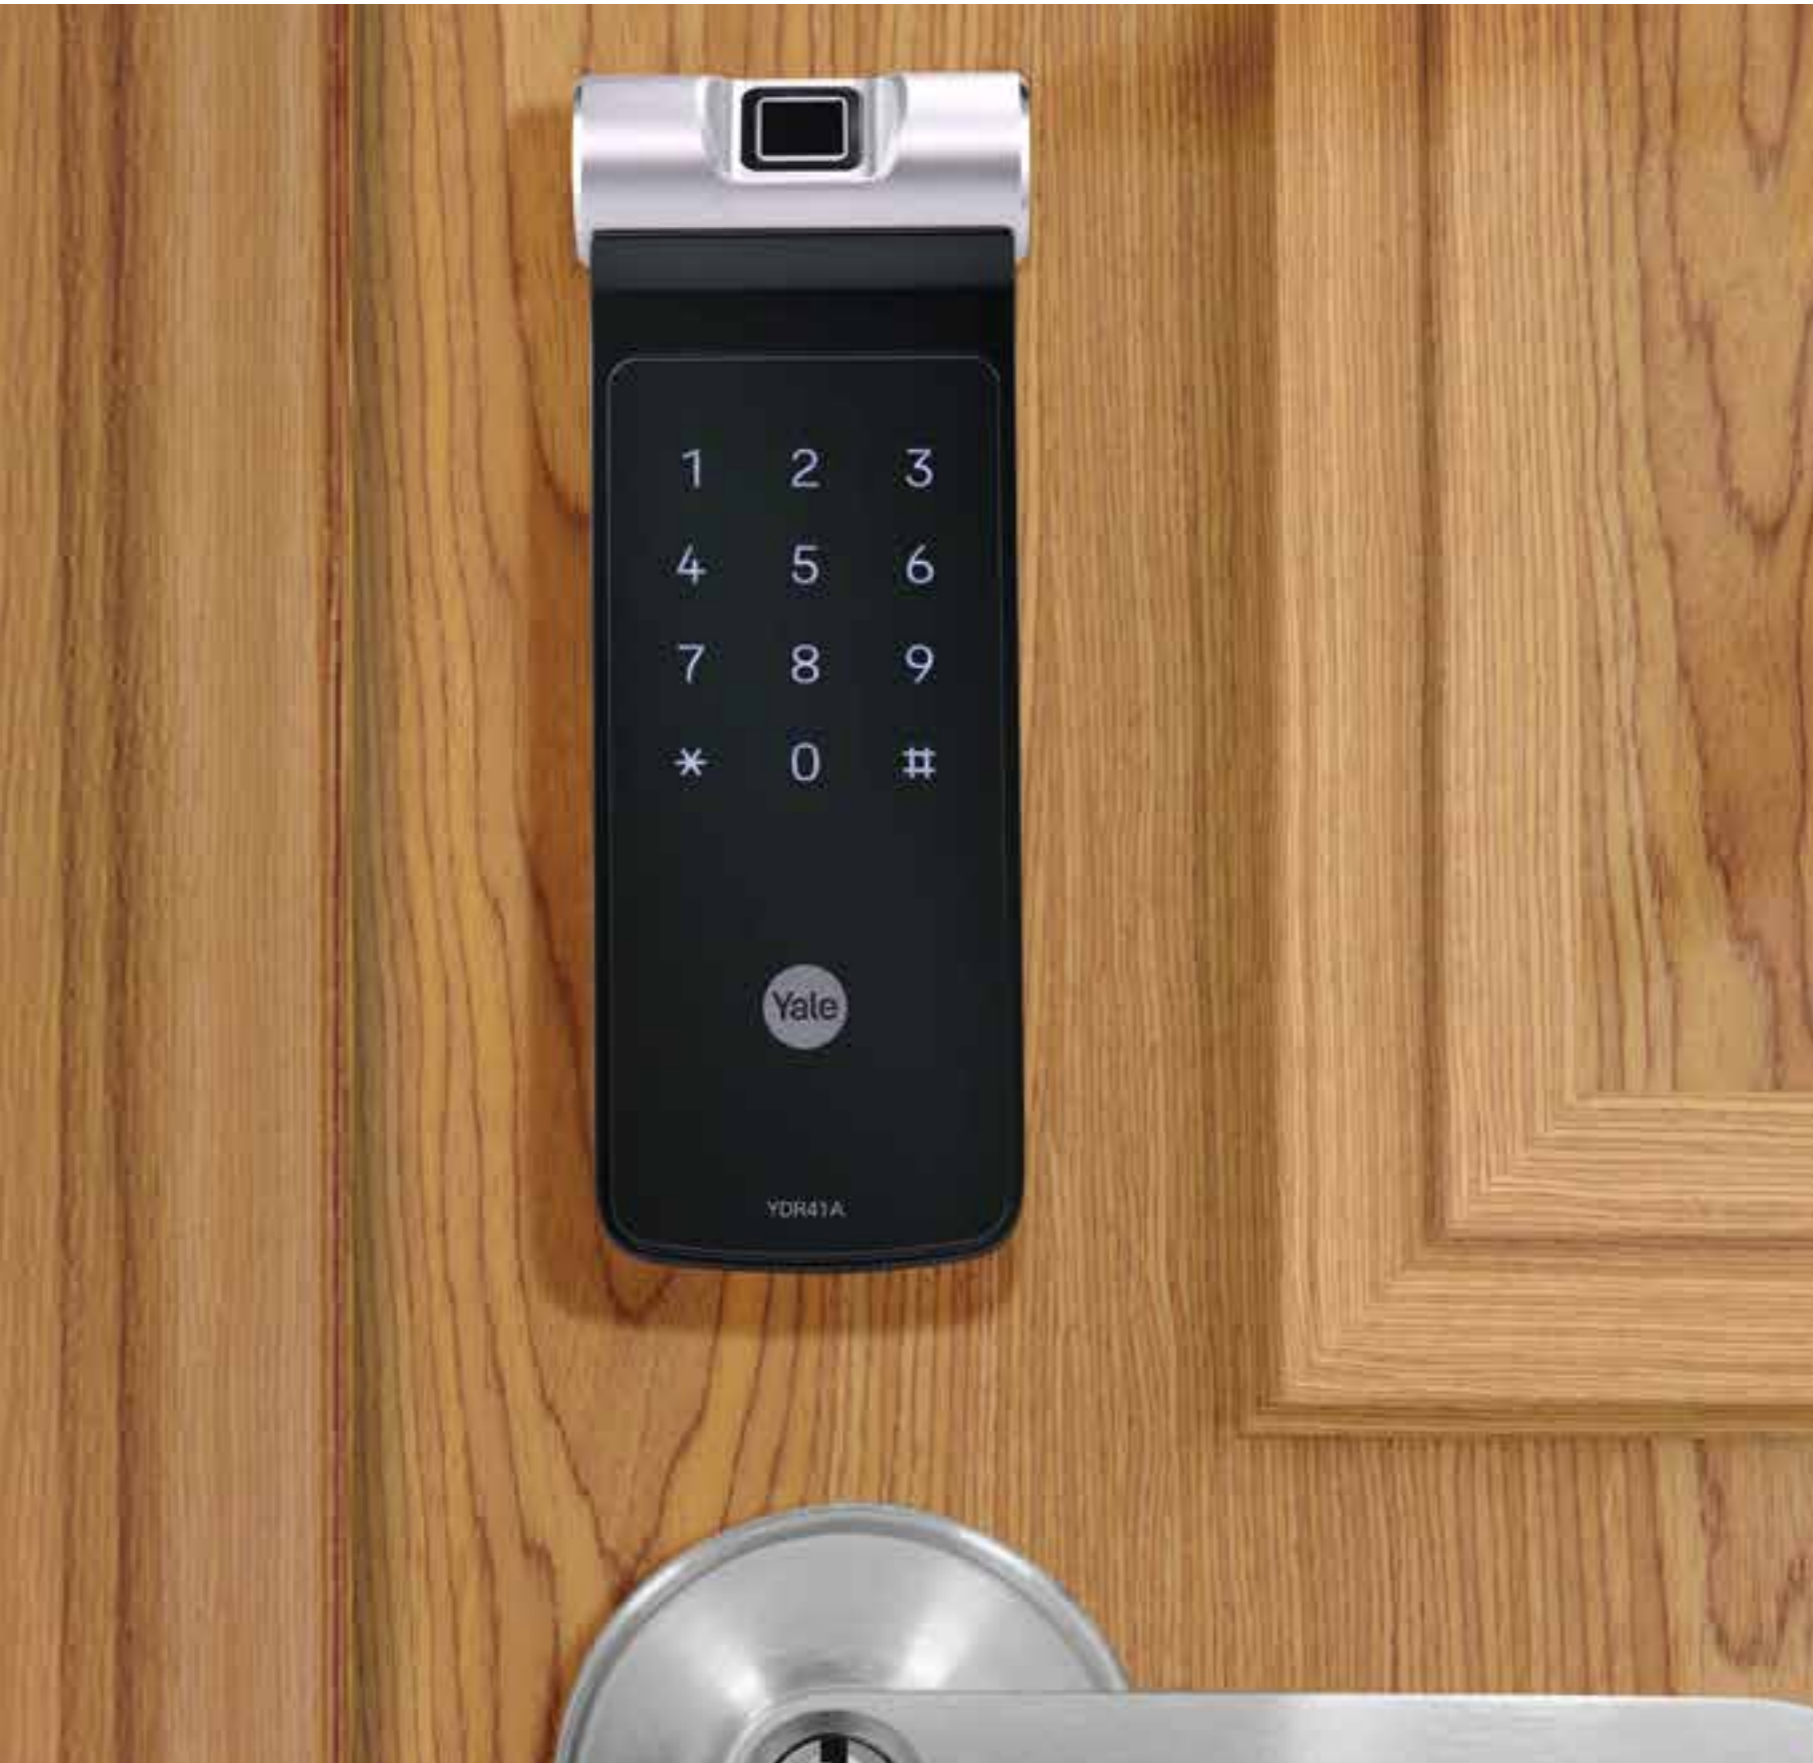

YDR41A

YDR41A has a jimmy-proof lock system in place to prevent forced or unauthorised entry through drilling, picking or bumping. Minimal door modifications are required to install the YDR41A biometric smart lock, which allows multiple modes of access such as fingerprint recognition and PIN code. When there's added security and convenience like the YDR41A, then you can have peace of mind.

*Yale Home kit is required for Yale Home functionalities (sold separately).

Smart Deadbolt Lock

Yale Smart Deadbolt locks are good for adding on to an existing door mechanism. If you prefer to use your existing handle or want to keep an existing deadbolt lock, Yale Smart Deadbolt lock will be your ideal choice that gives you extra security.

YDD724A

Deadbolts are one of the most effective types of locks you can trust for the utmost protection for your home. These locks, like the YDD724A, are typically used on external doors and are nearly impossible to break down. YDD724A has multiple access modes to choose from such as fingerprint recognition, PIN code, RFID key, mechanical key and the optional remote control.

Fingerprint | PIN code | RFID keytag | Bluetooth | Yale Home app* | Remote control (optional - sold separately)

YDD724A

Backset	60-70mm
Door thickness	45-57mm

*Yale Home kit is required for Yale Home functionalities (sold separately).

YDF40A

While investing in a complete home security can drive you up the wall, you can actually make your home less vulnerable to a break-in without bursting your budget by securing the front door and all multiple access points first with smart deadbolt locks like the YDF40A – it is strong and resistant to extreme physical attacks. With a monitored door alarm, if and when a forcible entry happens, an audible sound will be triggered and an alert will be sent to the homeowner – you. So, never take chances and have your safety compromised (even just for a short time), especially if you live in a location that is prone to burglary.

Fingerprint | PIN code | Bluetooth | Yale Home app* | Remote control (optional - sold separately)

YDF40A

Backset	60-70mm
Door thickness	45-57mm

*Yale Home kit is required for Yale Home functionalities (sold separately).

YDD424A

As a digital deadbolt lock, YDD424A is suitable for use on wooden door. Installing a deadbolt on your front door will help enhance your home's security significantly. This lock style resists forcible entry because it is not easily battered down. Therefore, YDD424A makes a door very resistant to entry that is without the correct authentication.

Fingerprint | PIN code | Bluetooth | Yale Home app* | Remote control (optional - sold separately)

Smart Gate Lock

Yale Smart Gate locks are suitable for apartments and residences, it is designed for minimum modification of your metal gate that provides you a good protection for your home.

YDR30GA

At Yale, we offer many smart locks for all types of doors and gates for optimum security of your home. As with any smart locks, one of their impressive features includes automatic locking. If you are someone who may check the door several times in a row to make sure it's really locked before leaving the house, consider investing in YDR30GA which comes with five unlock methods: PIN code, RFID key, remote control, mechanical key and phone. Plus, the slim design is an easy fit that suits a wide range of metal gate sizes and types. With confidence in the smart lock, you can leave your worries behind and get on with your daily routine.

PIN code | RFID keytag | Bluetooth | Yale Home app* | Remote control (inclusive)

YDR30GA

Main body	77(W) x 220(H) x 40(D) mm
Backset	50-60mm
Door thickness	25-30mm

*Yale Home kit is required for Yale Home functionalities (sold separately).

YDR50GA

The fingerprint recognition is one of the highlights of YDR50GA. Other ways to use the lock include RFID keys, PIN codes, smartphones, remote control, and mechanical keys override. Using the Yale Access app on your smartphone is an easy way to use your fingerprint instead of a PIN code or an RFID key when your hands are full. With just a touch of your finger, the sensor quickly reads your fingerprint and automatically unlocks the gate and door simultaneously.

Fingerprint | PIN code | RFID keytag | Bluetooth | Yale Home app* | Remote control (inclusive)

	YDR50GA
Fingerprint	Up to 100 users

Smart Glass Door Lock

Yale Smart Glass door lock is your perfect choice for any glass door with single leaf door or double leaf door. It is designed for minimum modification of your glass door that provides you a good protection for your home.

YDG413A

YDG413A in simply elegant mirrored finish provides keyless access for glass doors and has access solutions like PIN code and fingerprint. Convenience wise, it's much easier to enter a passcode or use your fingerprint to enter the glass door, rather than using a key card. Plus, with a smart lock, you can lock the door remotely – especially when you're dealing with sensitive data in your office room and think you should prevent theft and other forms of trespassing.

Yale Home kit

Yale Home Module

Yale Connect Wi-Fi Bridge

* Yale Home kit is required for Yale Home functionalities (sold separately).
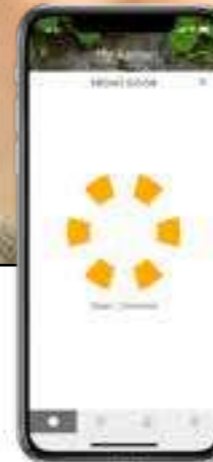

App control

Lock and unlock your door from your app, anywhere in the world.
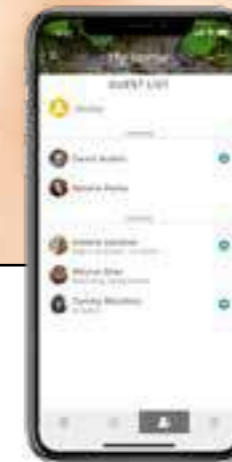

DoorSense™ technology

The lock will check the status of the door and tells you if your door is securely closed and locked.

Activity monitoring

See who comes and when with the Activity Feed. Check who unlocked the door and if or when it was actually opened. Set-up alerts to notify when specific people arrive home.
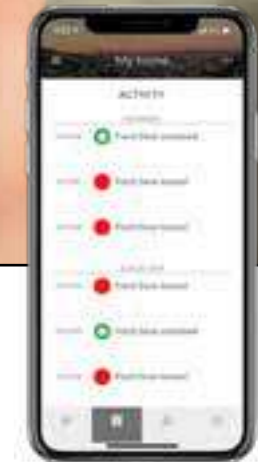

Guest access

Grant unlimited digital keys valid for a few weeks, a few hours, or a few minutes. Never worry about lost or stolen keys.

Protection for the home, peace for the mind

For your home. For the things you love. For you.

Yale offers you trusted everyday convenience and security for your entire home, through smart security products and easy to use Yale Home app.

We're here to help you protect the things that matter most.

Full control from the palm of your hand

Turn your smartphone or Apple Watch into your key. The intuitive Yale Home app for your Android or iOS device lets you manage the access of your home remotely.* You can share access with the people you trust, view activity, and receive notifications.

*Yale Connect Wi-Fi Bridge & Yale Home Module are required.
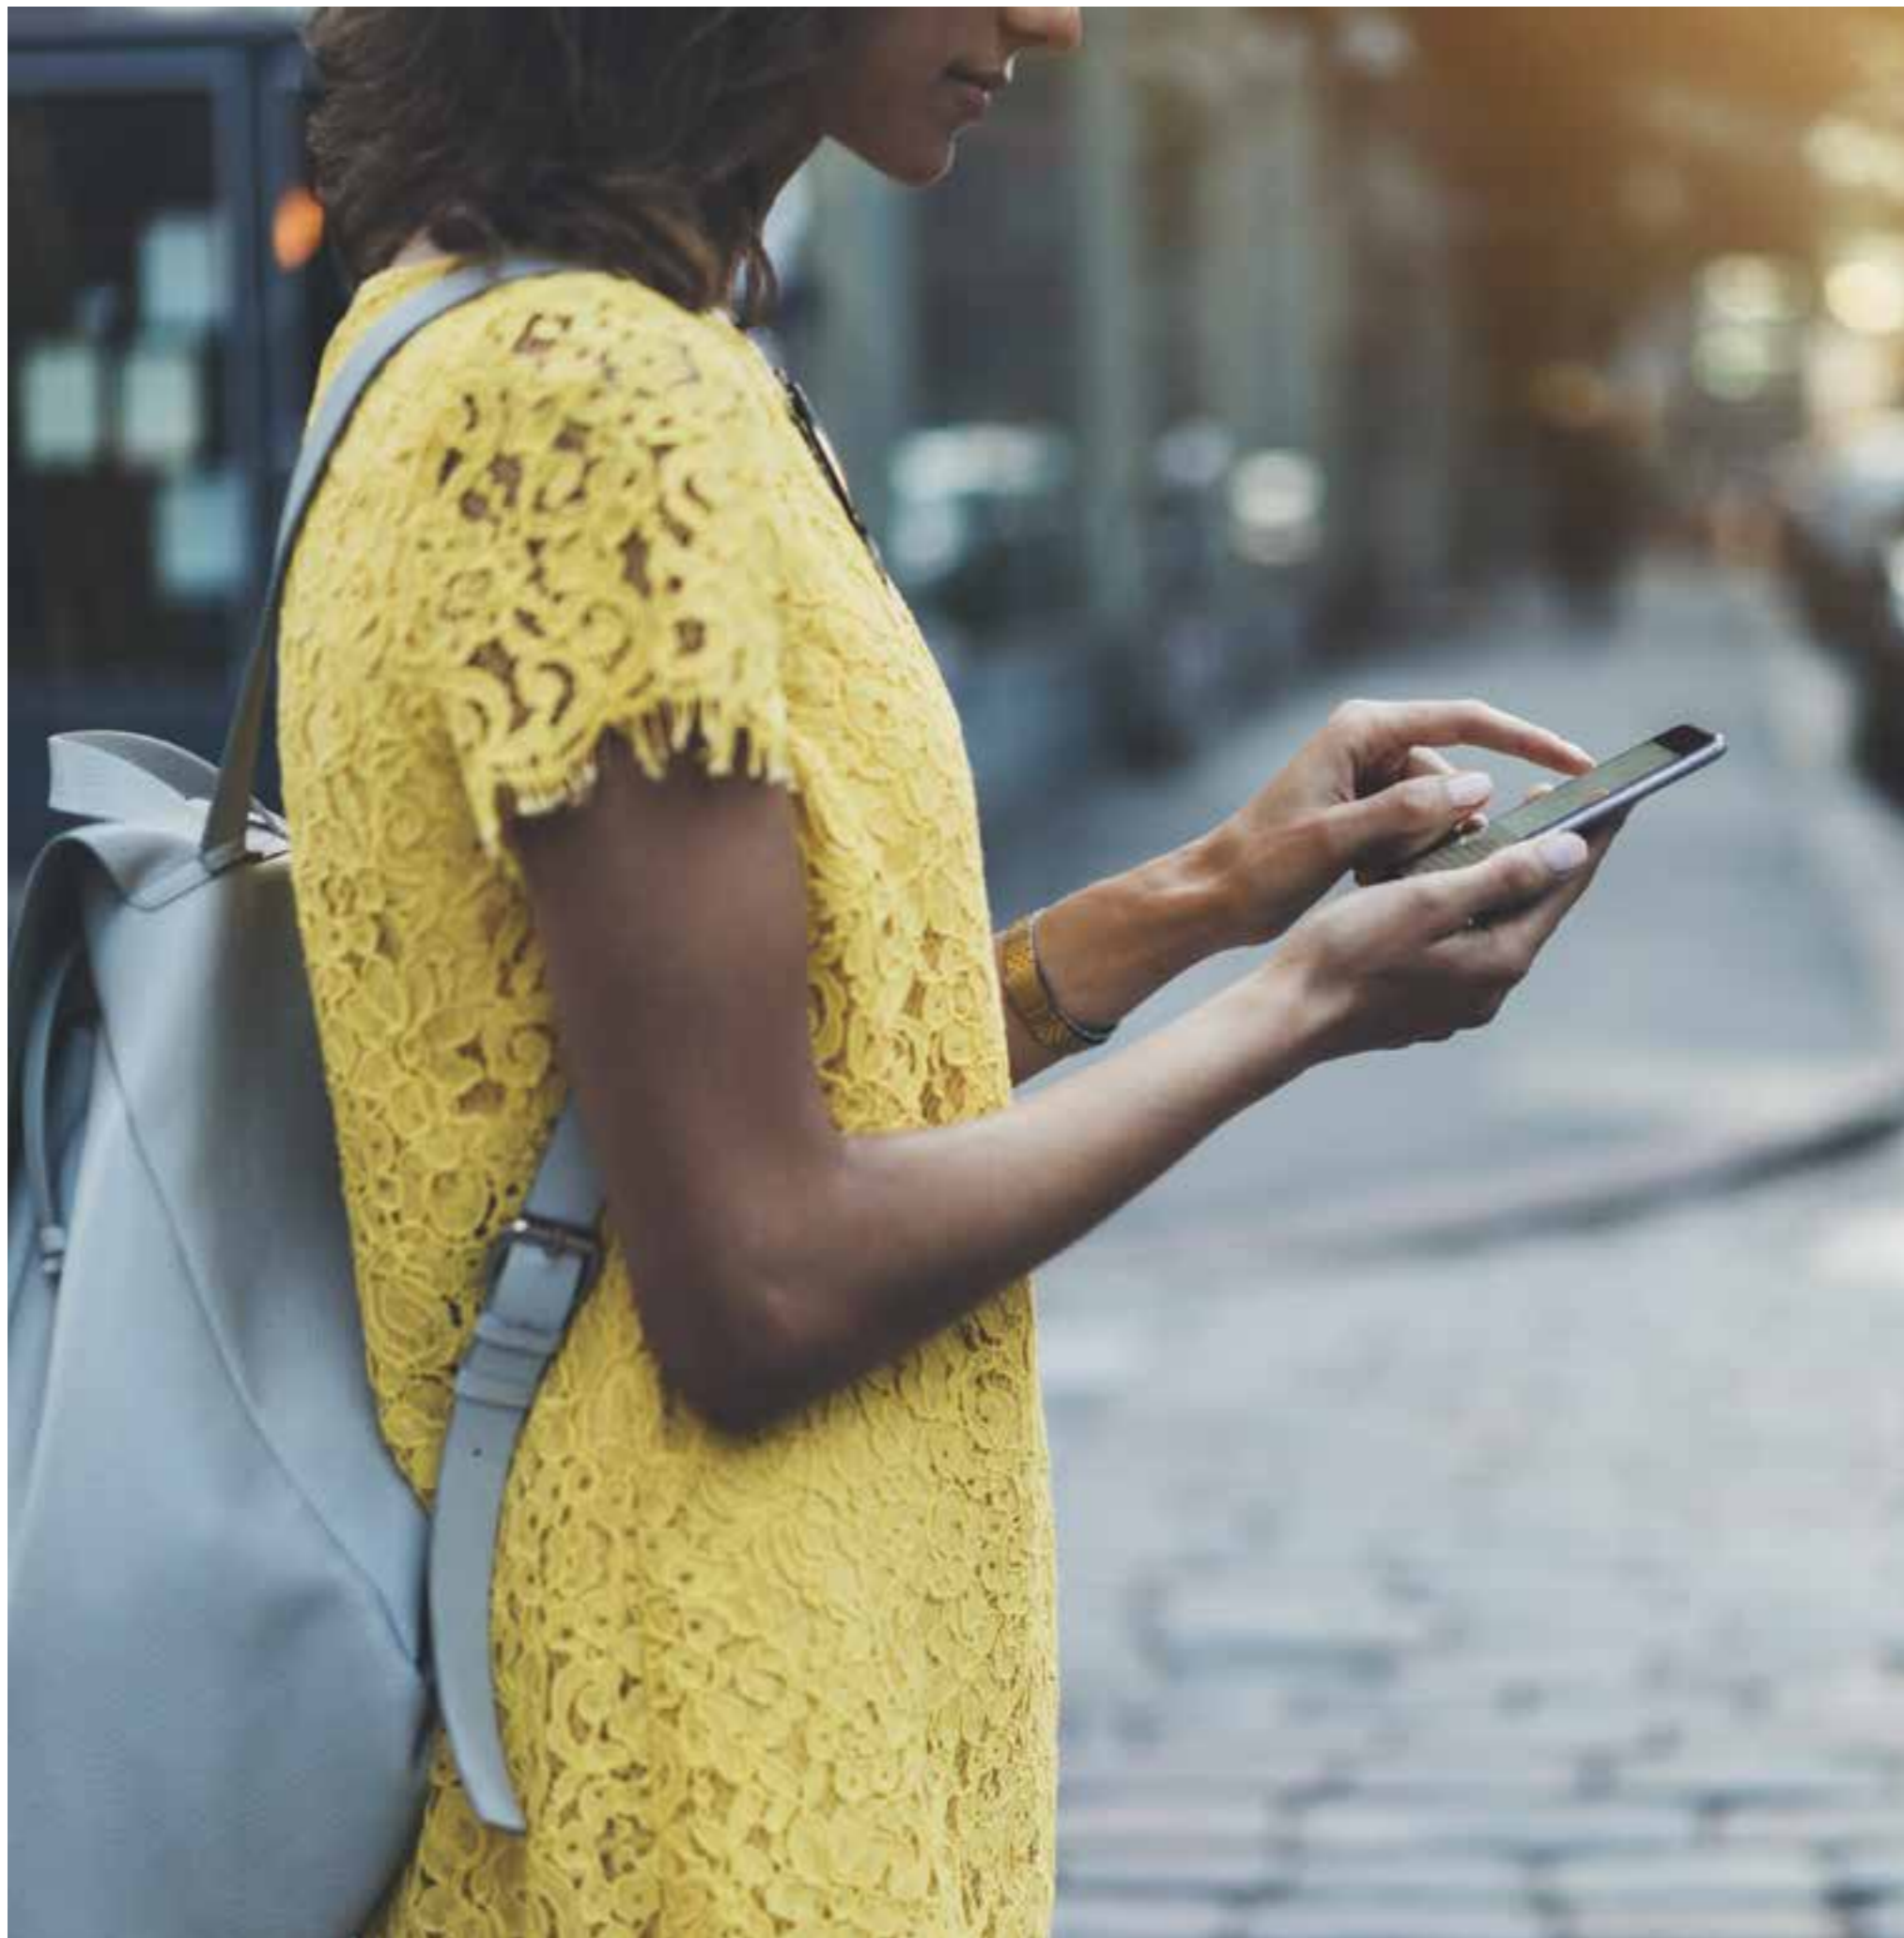

Installing is a breeze

The Yale Smart Lock installation is easy without any hassle. Now, your front door look smart and elegant.

Auto-lock and unlock as you come and go

For peace of mind, the auto-lock feature can automatically lock your door when you leave for the day, either immediately after closing or after a set amount of time via the Yale Home app. When you return home and walk up to your door, Auto-unlock will then unlock it again thanks to geo-fencing, so you don't need to fumble around with keys.

Grant entry from wherever you are with the Yale Home app

Remote access means you can let in family, friends and trusted visitors like the cleaner or the delivery driver – from anywhere – when Yale Smart Lock is paired with Yale Connect Wi-Fi Bridge. If someone forgets to lock when they leave, you can take care of it with the tap of a finger.

Safe and secure

Your security is our business. Yale Home account is protected by 2-factor authentication meaning that on top of your password, you will be required to verify your identity with either an email or phone number.

Our Yale Smart Lock uses Bluetooth Low Energy (BLE) technology encryption. On top of the security offered by Bluetooth, we use AES 128 and TLS encryption, commonly referred to as bank level security. If you lose your phone, you can disable your Yale Home app and all virtual keys at any time.

Everyday life made easier

Together with our trusted partners, Yale Smart Locks have the potential to open up a range of unique possibilities including in-home delivery, short term rental, and services like cleaning or babysitting – all of which will simplify our already time pressured lives.
